W: <https://about.me/jumbochan>

“We are not just here to manage capitalism but to change society and to define its finer values.” (Tony Benn)

The Labour Party has much potential to be at the forefront of fighting the scourge of ‘free market’ capitalism, imperialism and climate disaster. **Our potential for socialism, however, will not be realised unless we offer ordinary working people more complete control and confidence over their lives** – in simpler terms, democracy. This is a treasure which must be nourished and grown.

It is thus vital that the London Labour Party is always accountable and transparent. After all, every single of our elected representative ultimately derives all their powers from the mass of ordinary grassroots members who select and campaign for them. Overlooking the great talent, dedication and potential contained within our mass membership will only lead to disaster. It is on this basis that I have always campaigned for democracy, justice and openness, and will continue to do so. If re-elected, I will continue to **push for more power for the membership.**

If you allow me to continue to represent you on the London Regional Executive Committee, I will fight hard to ensure that **democracy, justice and openness** are not cast away. Only then can we ensure that the London Labour Party – and indeed, the wider Labour movement – can realise our potential, and to deliver socialism with and for the people of Britain.

I would be honoured and privileged if you could vote for democracy, justice and openness, and lend your support to me.

Please also give your support to Shezan Renny in Section 7.

A handwritten signature in black ink that reads "Jumbo". The signature is written in a cursive style with a long horizontal line extending from the end of the word.
