

Constitution

1. Name

The name of the association is Momentum.

2. Administration

The association shall be governed under this constitution by the members of the National Coordinating Group (“NCG”) as provided for under Rules 8 and 9 below.

3. Purpose

Momentum is a socialist and anti-racist organisation committed to a fundamental and irreversible shift in wealth and power to the working class in all its diversity. Our socialism means the democratic transformation of the economy to serve human needs and not profit, and the pursuit of climate and racial justice.

4. Principles

The association’s principles are:

- We believe in the need for a democratic economy in which power lies with the working class, and key industries and services are owned and controlled by the public and local communities;
- We believe in internationalism and a movement that works cooperatively with its allies across the world for socialism and peace;
- We believe that climate change is the biggest challenge of our times, and that overcoming it requires a bold socialist transition, with decarbonisation, international action and a massive redistribution of wealth and power;
- We believe that socialism is possible only through the collective and democratic self organisation of the working class in communities, trade unions, the Labour Party and forms of cooperative association;
- We believe that our organising as Momentum and in the Labour Party should be democratic, anti-racist and committed to coalition building to create majorities for socialist change.

5. Aims

The association aims:

- To work for the election of a socialist Labour government;
- To elect socialists to every level of public office, and to ensure that they are accountable to the movement that put them there;
- To campaign in our communities and win victories on the issues that matter, and to

demonstrate how collective action and socialist values can transform our society for the better;

- To transform Labour into a democratic socialist and member-led party rooted in working class communities and capable of delivering a socialist Labour Government;
- To support the growth of a powerful trade union movement, and to encourage all Momentum members to become active members of a trade union;
- To build popular support for socialist ideas and policies in order to support the growth of a broader socialist movement, inside and outside the Labour Party.

6. Commitments

To achieve its aims the association will:

- Be guided by our purpose in all things;
- Organise democratically, giving members a say in key decisions;
- Campaign and organise to support socialist Labour candidates to win local and national elections;
- Endorse and campaign for socialists in Labour Party selections and internal elections;
- Politically educate, by delivering programmes and running events, and supporting our membership to create spaces for socialist learning;
- Deepen our relationships with trade unions locally and nationally;
- Support social struggles and movements and act as a bridge, channelling their demands into the Labour Party;
- Develop a vibrant network of local groups, organising in the Labour Party and in their communities;
- Grow our membership and the Party, by reaching out to convince people of our purpose and encouraging them to join Momentum and Labour;
- Work with our allies across the Labour left, while providing leadership as the largest organisation of socialists in the Labour Party;
- Develop the next generation of movement leaders and elected office holders, through leadership programmes and campaigns;
- Develop and support Labour candidates with a wide range of life experiences, especially working class, Black, Asian, ethnic minority, LGBT+, disabled and women candidates;
