

**London Regional Board Division 6 (Hackney, Islington, Waltham Forest, Enfield and Haringey)**

## **Emine Ibrahim** Labour Party Number L0150489

**Hornsey & Wood Green CLP**

I am proud to stand as a socialist in the Labour Party to represent ALL party members across the new Division 6. There are many things most ordinary party members agree on and one of them is the need to fight for a transparent, accountable and democratic party.

The current direction of our party is one that is committed to anti austerity and I have proven my commitment to this over the past 4 years representing CLP's in the old North and East London division of regional board.

I believe that only with the engagement of ordinary party members and activists can we deliver a new radical Labour government as well as making further strides for Labour in Local Government

My reputation across the London Labour party is one of being an unashamed champion of radical future for our party particularly in Local Government. I put my words in to action by being at the forefront of a radical change in the direction of Haringey Council where I was previously a backbencher and then chaired the Housing and Regeneration Scrutiny panel which produced two reports that ultimately contributed to steering the borough away from a decision that would have changed the face of local government and its relationship with private developers. I am now deputy leader of the council I will always believe that Labour does best when the very people we seek to represent feel that we are fighting their corner.

My main priority over the last four years on regional board has been fighting for a democratic London Labour Party and I would like to continue to speak up for ordinary members who often feel that the regional structures of the party are remote. Since I was elected to Regional Board our party has grown at astonishing speed particularly in North London. Lots of those new members have faced challenges in understanding how our party structures work.

I will speak up for local activists who want to see a party that is;

- Transparent, accountable and democratic;
- Listens to the voice of trade unions that represent the interests of workers our party was built to provide a voice for.

As a trade unionist and full time Branch Secretary / Labour Link Officer of Redbridge Unison Local Government Branch I am committed to providing a voice for workers hit the hardest by the cuts. I am also a Councillor for Noel Park ward which is within Hornsey and Wood Green constituency. My typical day can consist of representing Unison members in for example Woodford Green, Wanstead, Ilford then travelling across North East London on public transport to attend a council meeting in Haringey. This is the experience of lots of party activists whatever position they hold in party. Whether it's a branch officer a Cllr or party members campaigning. I want our voices to be heard by full time party staff and MPs. I am active in my own CLP and have previously been the Branch Chair of Noel Park BLP, Vice Chair of Hornsey and Wood Green CLP and Fundraising officer while I was a member of Tottenham CLP.

Please also support Claudia Webbe from Islington South and Finsbury CLP for election to London Regional Board
